

Viktoryia Naumenka

Performance QA engineer

Georgia, Batumi • [Telegram](#) • +995555220735 • vikmurog@gmail.com • [LinkedIn](#)

Performance QA engineer with 1+ year of experience conducting load testing and communicating with the customers. I'm using my great self-learning, organization and communication skills to cover all parts of the testing tasks, to communicate with the customers and to handle untypical technical issues. Apart from that I'm leading the development of specific tools and constantly improving my technical skills. Additionally, I'm responsible for creating and updating the documentation.

Skills

✓ JMeter	✓ Grafana	✓ Java	✓ Docker	✓ Jira
✓ Blazemeter	✓ Charles Proxy	✓ Python	✓ MySQL	✓ Confluence
✓ Splunk	✓ Fiddler	✓ GitHub	✓ Data analytics	✓ Public speaking (English C1)

Experience

FEBRUARY 2023 - NOW

Performance QA engineer | a1qa Company | Georgia

Review and clarify the test requirements, develop the scripts, set up and execute different types of performance tests, analyze the results and prepare the reports. Additionally, I'm hosted the kick-off meetings with potential customers and presentation meetings (demo) regarding the test results. Apart from that I lead the developing of the script building tools (Java) and support bash-scripts to work in MySQL DB (for routine procedures).

NOVEMBER 2022 - FEBRUARY 2023

QA Trainee | a1qa Company | Georgia

Improve theoretical knowledge of manual and performance testing, learn and prepare different types of test documentation, prepare bug reports in Jira, do manual testing of web-applications, work with different types of environments (using virtual machines).

Education

FEBRUARY 2015

Master of biological sciences | Belarusian State University | Belarus, Minsk
